INTERMOUNTAIN RATE ORDER OF NO EFFECT HERE

Experts Explain Far-Reaching Decision of United States Supreme Court.

INTERMOUNTAIN RATE

At First Thought That Chesapeake and Ohio Would Be Affected, but Freight Men Show How Tariffs Are Combined.

The recent action of the United States Supreme Court in sustaining as valid the Interstate Commerce Commission's so-called "intermountain rate order" will have no adverse effect upon the revenues of the railway lines touching Richmond, according to statements made yesterday by those in touch with traffic conditions and rates as applied to this territory. It was thought by some that the revenues of the Chesapeake and Ohio Railway Company would be adversely affected by the court's decision, but it was stated yesterday that this will not be the case, inasmuch as the rates to this territory from points reached by the Chesapeake and Ohio line are made by combining the rates from the Eastern territory to the Mississippi River, plus the Western lines beyond.

The decision of the court in sustaining the commission's "intermountain rate order" will have no effect on rates applying to points in this immediate territory or in any of the adjoining States. The decision, however, will have the effect of causing a readjustment of the entire rate basis from the Mississippi River to that portion of the country lying between the Missouri River and east of California. The reference to "intermountain rates" in the orders refers to Rocky Mountain as being the dividing line between Eastern and Western territory.

RICHMOND DROPS DOWN TO NINTH PLACE IN LIST

Weather Was Plainly Hot, but Director Evans Only Reports 92 Degrees.

RICHMOND DROPS DOWN

Intense Suffering in City and County, and From Michigan to the Coast There Is Not the Slightest Sign of Rain.

It was so hot yesterday that it was too hot even to argue, and those who are politicians, by the way, sought the shade of the July tree and left the streets to the sway of the sun. But those who are toilers through stern necessity felt the full burden of what they had to endure what they could not well prevent. The mercury was busy most of the day, climbing from 72 degrees to a maximum of 92 degrees, with variations up and down the thermometer tube between the two points. From noon to 3 o'clock the mercury stuck to the eighty-eight mark, but it felt hotter at 3 o'clock than it did later, and there were those who believed that the thermometer was mistaken, to say the least. The mean temperature was 82 degrees, while the normal is 77, which gives one another idea of how hot it really was.

Though the heat seemed to rank with that which has visited Richmond before this season, the thermometer really showed it to be slightly cooler, and Richmond, while these who were in the country among the hottest cities, fell to ninth position, Savannah, Ga., making a home run, with a record of 100 degrees. Charleston, Louisville and Montgomery were next, with degrees lower; Jacksonville and St. Louis were 96 degrees, and Atlanta and Oklahoma registered 94 degrees. But it was not enough in Richmond, and the other cities were welcome to the high averages they made.

MAGISTRATE PRIVOTT SEVERELY REPRIMANDED

Admits Issuing Child Labor Permits in Violation of Law.

MAGISTRATE PRIVOTT

Judge McLemore Dismisses Petition for Removal From Office, but Points to Necessity of Enforcing All Statutes.

Charged with incompetency in the administration of the duties of his office because he issued permits to children to work in factories in violation of the child labor law, Magistrate E. G. Privott was yesterday arraigned in the Circuit Court at Suffolk, and was given a severe reprimand by Judge McLemore, who presided at the trial. The magistrate appeared before the court to answer a motion made by Commissioner of Labor James B. Doherty to have him removed from office on the grounds of incompetency. Prosecution for the Bureau of Labor was conducted by Captain Charles M. Wallace, of this city.

After several illegal permits, which had been issued by the magistrate, had been introduced in evidence, and after J. E. Clindinst, chief factory inspector for the State, had testified, the defendant, pleading ignorance of the law, frankly confessed that he had issued illegal permits, and asked for the mercy of the court. Judge McLemore, after hearing argument by counsel, stated that while he was thoroughly convinced of the guilt of the defendant, he was not disposed to humiliate him by removing him from office. The judge therefore ordered a dismissal of the motion to remove, but severely reprimanded the defendant for his disregard of the law.

Smith Claim Is Referred

Suit Has Been Instituted for Extra Allowances on Mayo Bridge, So Committee Awaits Result—Other Claims Reported.

Over the protest of Chairman Harvey Atkinson, the Council Committee on Claims yesterday afternoon recommended that the City Council should pay the City of Suffolk a sum of \$4 for a carriage, but that the City Council should not pay more than \$3.50 for a carriage. The City Council stipulates that not more than \$3.50 shall be charged for carriages used at funerals, and fixes a penalty of not less than \$5 nor more than \$20 for violation.
